Spine&Disc is an *evidenced based* Medical Center located in North Phoenix.

The doctors at Spine & Disc have forty-five years of combined experience treating patients that are suffering from back and/or neck pain due to herniated discs, bulging discs, degenerative disc disease, sciatic leg pain, and facet syndrome. Dr. Blankenbaker was the first Physician in Arizona to install both:

- **MedX** (computerized equipment used to strengthen the muscles that support the spine)
- **VAX-D** Vertebral Axial Decompression (computerized decompression device used to decompress the spine and discs).

The combination of both of these technologies has resulted in an 88.8% success rate, which is the highest outcome in spine care.

WE ACCEPT REFERRALS FOR:

**CHIROPRACTIC MEDICINE
SPINAL DECOMPRESSION (VAX-D)
SPECIFIC SPINAL REHABILITATION (MedX)**
